High tech printing technology.
Easy operation.
Dual input, dual output.

SurePrint S200
slide printer

The very best technology
for your slides

SurePrint
S200
slide printer

Featuring non-contact ultraviolet laser marking technology, Dakewe SurePrint S200 intelligent slide printer offers fast, rich-content and consumable-free printing.

The innovative upward slide delivery system allows smooth and safe transport of slides.
S200 works with most of microscope slides on the market.

The printing is crisp and permanent, resists processing solvents, reducing errors and enabling traceability.

Dual input, dual output.

- **Dual input, double selection** — with 2 loading hoppers, S200 can store 2 types of slides separately
- **Large capacity** — 200-slide capacity offers relief from repeative reloading
- **Dual output, double printing modes** — upper slot for on-demand printing and lower hopper for batch printing, accommodate your laboratory routine

Fit seamlessly into current workflow.

- **Slide compatibility** — compatible with most of slides with paint coated tab
- **Seamless integration** — send printing command from the built-in software, PC software, integrated LIS or LIMS, or optional scanner
- **Easy operation** — windows-based system with concise UI

Easy and safe operation.

- **User safety** — dedicated triple-layer filters in the air purification system keep odor and dust away from operator
- **Front loading feature** — convenient loading and unloading

High tech printing technology.

Thanks to our non-contact ultraviolet laser marking technology, S200 offers:

- **High printing speed** — as fast as 5 seconds per slide
- **Crisp print** — UV laser marking technology grants 2500 dpi high resolution and successful scanning
- **Minimal maintenace** — non-contact printing results in little to none maintenance
- **Rich content** — Alphanumeric, multiple languges, symbols, 1D & 2D codes, graphics

Innovative upward slide delivery.

Gravity-driven delivery system are prone to break the slides and induce blockage.

This will never happen in S200 as it implants upward slide delivery system, slides are delivered upwards and then vertically to printing area, eliminating possibility of slide fragmentation.

Left: downward slide delivery
Right: upward slide delivery in S200

Dakewe Microscope Slides
Ideal for S200 laser printer

Product code	Product	Specs.
7109030A	Microscope Slides	1 box
DKWAS001A	Adhesion Microscope Slides	1 box

Dimensions (W × L)	25 × 75 mm
Thickness	Approx. 1.0 mm
Quantity	50 slides/box
Shelf life	18 months
Edge	Ground 45°
Color	Paint coated, multiple colors

Technical Specifications	
Model	S200
Printing technology	Non-contact ultraviolet laser marking technology
Loading hopper quantity	2
Loading hopper capacity	100 slides
Output hopper capacity	50 slides
Output slot capacity	3 slides
Print speed	Up to 5 seconds/slide, 720 slides/hour
Print options	Alphanumeric, multiple languges, symbols, 1D & 2D codes, graphics
Air purification	Built-in activated carbon air purification system
System interface	LIS, HIS, PIS, PACS
Printer interface	USB 3.0 × 1, USB 2.0 × 2, RJ45 × 2
Power requirements	AC 100 - 240 V, 50/60 Hz, 210 VA
Dimensions (D×W×H)	440 × 240 × 450 mm
Weight	Approx. 32. 5 kg
Operating systems	Win 7, Win 10, Linux
